Career objective

Aspiring to work in a dynamic and growth-oriented environment where I can leverage my academic background in computer applications to develop effective solutions and gain hands-on experience in the IT industry.

Education

Bachelor of Computer Applications (BCA)

Institute of Innovation in Technology and Management.

(2023 – 2026)

Skills

- Front-End: HTML5, CSS3, JavaScript, Tailwind CSS , Tanstack .
- Back-End: Nodejs, Express, python.
- Other Tools: Git, GitHub, Responsive Web Design.
- Soft Skills: Problem Solving, Creativity, Team Collaboration.

Projects

1. Tesla Website Revamp
   HTML, CSS, JavaScript, Bootstrap
- Redesigned Tesla's official website to improve user experience with modern layouts and fast load times.
- Enhanced mobile responsiveness and updated brand visuals to align with Tesla's identity.

2. URL Shortener Web Application
MERN Stack (MongoDB, Express.js, React.js, Node.js, TailwindCSS ,TanStack)
• Developed a full-stack URL Shortener with custom short links and redirect functionality.
• Implemented JWT authentication and bcrypt for secure user login.
• Designed RESTful APIs and used MongoDB for efficient URL mapping and click tracking.
• Built responsive frontend with React and TailwindCSS for seamless UX.
